EDUCATION

SISTER NIVEDITA UNIVERSITY

2020-2024

BTECH IN COMPUTER SCIENCE AND BUSINESS SYSTEMS

Kolkata

CGPA : 9.28 / 10

UP PUBLIC SCHOOL

2018-2020

Class XII, CBSE

91.4 Percentage

ST. ANDREWS HIGH SCHOOL

2004-2018

Class X, WBBSE

86.4 Percentage

COURSEWORK

UNDERGRADUATE

Data Structures and Algorithms

Operating systems

Object Oriented Programming

Database Management System

Machine Learning

SKILLS

PROGRAMMING

Languages:

C • C++ • Python • Javascript

Frontend:

HTML • CSS • React

Backend:

Nodejs • Express.js • Redux

Database:

PL/SQL • MongoDB

EXPERIENCE

TATA CONSULTANCY SERVICES | SYSTEMS ENGINEER (PRIME)

Jan 2025 – Present | Kolkata, India

- Developed an OCR microservice using Tesseract and RegEx to extract structured data from financial and ID documents.
- Used an XGBoost regressor to estimate insurance reserves based on multiple claim-related features.
- Built RESTful microservices with FastAPI for both document data extraction and ML-based reserve amount prediction.
- Integrated Python-based microservices with an existing Java backend, enabling automated workflows and real-time database updates.

PROJECTS

MOTIONPRINT | Github

- Developed an identification system to uniquely recognize individuals based on their walking patterns.
- Collected accelerometer and gyroscope data from smartphones to analyze gait dynamics.
- Applied an LSTM neural network model to enhance the accuracy of identification by learning distinct walking patterns.

PROCTORPULSE | Github

- Developed an online examination platform using the MERN stack.
- Integrated Redux for robust and scalable state management.
- Designed a user-centric interface tailored for both students and administrators.

PHOTOSIGNIFY | Github

- Created a Flask-based API with TensorFlow and Keras for image classification.
- Trained a CNN model to accurately classify images as faces or signatures.

ACHIEVEMENTS

- Amazon ML Summer School 2023 invitee, excelling in Machine Learning studies
- 900+ problems solved in **Leetcode**
- Global rank 81 in October challenge 2021 in DIV3 (Codechef)
- 3star coder at Leetcode (Highest rating 1642)
- Attended 67 contests at Leetcode
- Completed Hacktober-Fest 2021 sponsored by digital and Contributed to 4 of their open source projects

POSITION OF RESPONSIBILITY

- Technical Lead at HackClub SNU (2022)
- Problem Setter and Tester executive at Codechef SNU Chapter (2021)
