COURSEWORK

UNDERGRADUATE

Data Structures

Algorithm Analysis

Operating systems

Object Oriented Programming

Database Management System

Machine Learning

Design Analysis of Algorithm

Compiler Design

SKILLS

PROGRAMMING

Languages:

C • C++ • Python • Javascript

Frontend:

HTML • CSS • Javascript

Backend:

Nodejs • Expressjs

Database:

SQL • MongoDB

PROJECTS

FILE COMPRESSION AND ENCRYPTION | Github

December-2022

File Compression is done using huffman technique. Double layer of encryption is done using an additional key. Developed a frontend as well as a backend using python, html and css.

INTERIORS | Github

February-2022

Created an interior Designing Website.

Developed frontend using pug, CSS, Javascript and backend using Nodejs, Expressjs and MongoDB
